Foreword

IPPF has a new strategy. It is bold and ambitious. It marks the aspirations of a reinvigorated and inspired federation that comes together to unbridle its collective power. In 2023 we start the journey to modernise our care and expand our reach. We recognise that we must go further to reach those who are marginalised and excluded. The talent and energy of youth permeates the strategy, as it must do in our work. With them, the federation must dare to speak and act in accordance with our feminist and anti-racist principles.

The clock is ticking on our strategic commitments. We will have to move with purpose and with pace. In the first quarter of the year, the Secretariat took a first purposeful step by realigning its structure and operations to the new strategy. The reconfiguration draws the secretariat closer to the Member Associations. It engrains connection points between the secretariat and members that facilitate dialogue and mutual support. Echoing the strategy, the realignment joins – tactically and operationally – the federation’s advocacy, communications, and norms work into one powerful system.

This is the first business plan of the realigned secretariat. It captures the necessary spirit of change as we continue our forward momentum. It describes the budgets and plans of a secretariat ready to lead and serve in a global federation. It responds to the demands for attention and support by the members. The plan details how we will move from strategic ambition to action; how we will deliver with and for those who are marginalised and excluded.

Alvaro Bermejo
IPPF Director General

Summary

The overriding theme of IPPF's new strategy is care and rights for marginalised and excluded communities. The Secretariat's 2023 business plan reflects the urgency of transitioning between strategies, and of readying the federation to deliver in new and exciting ways.

As a first and essential step towards strategic delivery, the Secretariat has undergone a re-alignment process. This entailed changes to structure and staffing. The realignment optimises the secretariat's ability to support the members, and to deliver on the many culture and value improvements required by the strategy. The new secretariat structure came into effect in May 2023. Following the 2023 realignment, the secretariat consists of 46 units and teams, situated within 4 division and 6 regions.

The new structure necessitated updating of the 2023 business plan. The process took place during April and May. The revised business plan provides an overview of what will happen in the seven offices of the secretariat. It describes key office data as well as summary of the office focus and budgets for the planning period. The projects will be monitored quarterly to track progress and identify concerns or challenges.

The 2023 Secretariat business plan contains 207 projects delivered with a total budget of \$125.46 Mn. More than half of all secretariat projects are devoted to strategic pillar four: Nurture Our Federation. This includes the flag-ship effort of re-defining the federation's values, which will offer new impetus and energy. Other efforts include MA strategic alignment, anti-racism and inclusion, governance strengthening and resource mobilisation, including diversification.

All of this will happen against a backdrop of high-quality care and implementation of restricted contracts. Pillar 1: Centre Care on People thus accounts for 24% of all projects. The projects range from expansion of digital health intervention to furthering our reach and impact for and with marginalised communities and people. It also includes exciting MA-led initiatives, under the Strategic Fund, to pilot delivery mechanisms and services such as abortion selfcare and biomedical HIV prevention.

Fewer but substantive projects are devoted to Pillar 2: Move the Sexuality Agenda, which accounts for fifteen percent of projects. Pillar 3: Solidarity for Change accounts for five percent of projects.

The business plan is guided by a set of medium-term priorities for the period 2023-25, which was defined by the Directors Leadership Team (DLT). There are twelve priorities in total, most of which focus on the transitioning to and delivery of the new strategy. A further breakdown of the priorities can be found below and in Annex 1.

The business plan presents the budget for funds flowing through the IPPF secretariat in 2023. The budget is based on information that is currently available with the Secretariat. This budget has been prepared using information from each secretariat office.

The table below presents a high-level summary of the transition budget by source of funding for 2023 excluding hosted programmes.

Income/Exp	2023 Revised Budget				2023 Original Budget			
	Restricted	Designated	Unrestricted	Total	Restricted	Designated	Unrestricted	Total
Income								
Grant Income	36,187	0	61,599	97,785	44,537	0	54,312	98,849
Donation Income	15	0	3,738	3,753	0	0	2,660	2,660
Other Income	0	0	661	661	0	0	300	300
Overhead Recovery	0	0	2,277	2,277	119	0	3,520	3,639
Total Income	36,202	-	68,275	104,477	44,656	-	60,792	105,448
Expenditure								
Staff Costs	7,555	4,502	13,844	25,901	7,842	4,160	14,662	26,664
Grants	33,800	3,796	41,242	78,838	33,095	3,288	41,842	78,226
Other Secretariat Costs	7,517	6,313	6,887	20,717	8,403	4,570	6,330	19,304
Total Exp	48,872	14,611	61,974	125,457	49,341	12,018	62,834	124,193
Net Op Income/ (Draw down)	-12,670	-14,611	6,302	-20,979	-4,685	-12,018	-2,042	-18,745

The key take-aways based on the revised budget are listed below. The details of each of the line items have been explained in the subsequent paragraphs.

a) Income

- Core grants have been adjusted to the forward rate contracts signed off to secure the total core grant income for the year.

- Core grant income is higher than the original budget by \$7.48Mn because income from Ireland, Germany and Australia to the extent signed off after the original budget was prepared have now been included in the revised budget.
- Significant funding cut under restricted projects is contributed by funding cut of approximately \$10Mn under the WISH programme. This has been marginally compensated by a new restricted project under the Japanese Supplementary Budget approved following sign off of the original budget.
- **Risk (on income side)**
 - Sweden unrestricted core income grant **most likely to drop significantly.**
 - Although the unrestricted core income grant agreement has not yet signed off with the Norwegian Government, we have been informed that they have approved an amount **higher than budgeted by Nok 10 Mn (circa US\$ 900k).**

b) Total Secretariat Costs covered from unrestricted core funding is at circa 30.4% which is lower than the original budget both in absolute and percentage terms.

Secretariat Operating Budget	Budget (original)	Budget (Revised)
Core Income	62,834K*	68,275K
Secretariat cost (unrestricted core)	20,992K	20,731K
Secretariat budget as a % of unrestricted core income	33.4%	30.4%
(Deficit)/ Surplus	(2,042K)	6,302K

c) Overall fund balance across all sources projected to remains positive at the end of the year after drawing down the projected additional funds for expenditure during the year, as reflected in the table below:

Source of Funding	Opening Balance (1st Jan'23)	Budget (revised)	Closing Balance (31st Dec'23)
General Reserves	20,894K	6,302k	27,196k
Designated Funds	31,709K	14,611k	17,098K
Restricted	24,143K	12,670k	11,473K

d) Other take aways include:

- Overall budget does not include any contingency budget.
- The additional activity costs included in the revised budget are as follows:
 - i. US\$ 140k, @ US\$ 20k for each MA facing unit/ division.
 - ii. US\$ 200k cover (partly) regional meetings for Brand/ Charter/ Strategy Adoption.
 - iii. US\$ 225k to cover Anti-Racism work.

This budget has been reviewed and signed off by the DLT and is being presented to the C-FAR on 25th May 2023.

Introduction

The 2023 business plan is submitted to the Board of Trustees, via the Committee for Finance, Audit and Risk. It details the total work and budgets proposed by the IPPF Secretariat for implementation in 2023.

The business plan has two parts. The first part is devoted to planning. The second part describes the budget, which covers all funds that flow through the secretariat, including core grants to Member Associations.

All work and budgets – from large donor contracts to high-level operational workstreams – are described in terms of projects. The secretariat operates with four types of projects. These are:

- 1. Unrestricted core projects**, which receive activity funding out of the Stream 1 Secretariat allocation. Unrestricted core projects often relate to fixed cost required for the running of the Secretariat and the governance structure. The category also includes projects of strategic importance that have been granted activity funding for a fixed period towards clear objectives.
- 2. Staff Core Projects**, which are timebound action towards a high-level objective implemented only through staff time. These projects have no activity budget and are required to leverage other existing funded workstreams or to raise funds for their implementation (at which point the project would transition to becoming a restricted project: see below).
- 3. Designated Projects**, which are funded from the IPPF reserve through a dedicated designation of funds by the Board of Trustees towards a clear strategic objective. Unlike Unrestricted core projects, designated project can run over multiple budget years and cycles.
- 4. Restricted Projects**, which are donor-funded with specified terms of agreement and deliverables. These projects adhere to the agreement and operate for as long as is stipulated.

Priorities

While the Secretariat's long-term planning focus is fixed by the 2023–2028 strategy, the medium-term focus is guided by twelve priorities, which are set for the first three years of the new strategic period. The business plan is developed within these parameters, and it has a three-year perspective. However, most

projects operate with a short-term, one-year focus. This necessitates annual updates of the plan. The planning and budgeting process for 2024 will commence in September 2023.

Figure 1. Secretariat Focus

The business plan's medium-term reference point are twelve priorities set by the DLT. They build on the secretariat's core roles and mandate. All unrestricted and designated secretariat projects must relate to these priorities. The secretariat priorities fall into three broad categories, as outlined below:

FEDERATION HEALTH

- 1. Support MA-alignment with the new strategy.** MAs are what set IPPF apart. They join the Federation to have greater impact than they would have alone.
- 2. Grow the Federation.** Identify and bring in new members in the countries with highest need and/or policy influence and strengthen delivery capacity of existing MAs.
- 3. Support MA financial sustainability.** An objective of Strategy 2022 was to double MAs' domestic income between 2016 and 2022 but instead it has gone slightly down. The Secretariat supported the establishment of a Social Enterprise Hub (FPASL), which has done excellent work. Much more work and emphasis is required by the Secretariat in this important area.
- 4. Invest in leadership, including youth.** Embed inter-sectional, inclusive, diverse and gender-transformative approaches.
- 5. Develop Charter and Re-brand.** The BoT has recommended that following GA approval of the Strategy it is followed by the development of a Federation Charter through which MAs and Secretariat sign up to a shared set of values.

SECRETARIAT LEVERAGE

6. Align Secretariat structure, competencies, and skills to the new strategy.

We have moved decisively towards a unified Secretariat with a systematic approach to job evaluation, salary benchmarking, compensation, and benefits. While much is yet to be done, progress is already reflected in our top-ranking position in the Global Health 50/50 index.

7. HR, Finance and IT increase efficiencies (to support people, process and system effectiveness).

8. Develop individual giving (US) and nurture new strategic partnerships.

PROGRAMMATIC IMPACT & INNOVATION

9. Expand person-centred care including, DHI & self-care. IPPF will provide the fullest possible range of affordable and quality sexual and reproductive care and commodities. Improve quality care standards, expand contraceptive and abortion services, HIV integration, SGBV programming and advance digital and self-care.

10. Widen Access. As a Secretariat, we shall prioritise support to provide access to lifesaving SRHR services to those caught in humanitarian crisis or excluded because of their sexual orientation or gender identity.

11. Systematically support work to shift norms and laws, support movements and educate (CSE). Deliver a strategic, integrated approach to achieving social and legislative change (and preventing regression) that unleashes IPPF's potential as an influential political actor/voice (arising from working at national, regional, global levels and across multiple geographies).

12. Drive (decolonised) research agenda, evidence and KM. Client-centred information systems will be strengthened and expanded as the information available to the frontline changes dramatically and as teams better define their own information needs. These new systems will give a much clearer view of how a team's performance contributes to the whole, and will have a strong focus on customer-oriented value.

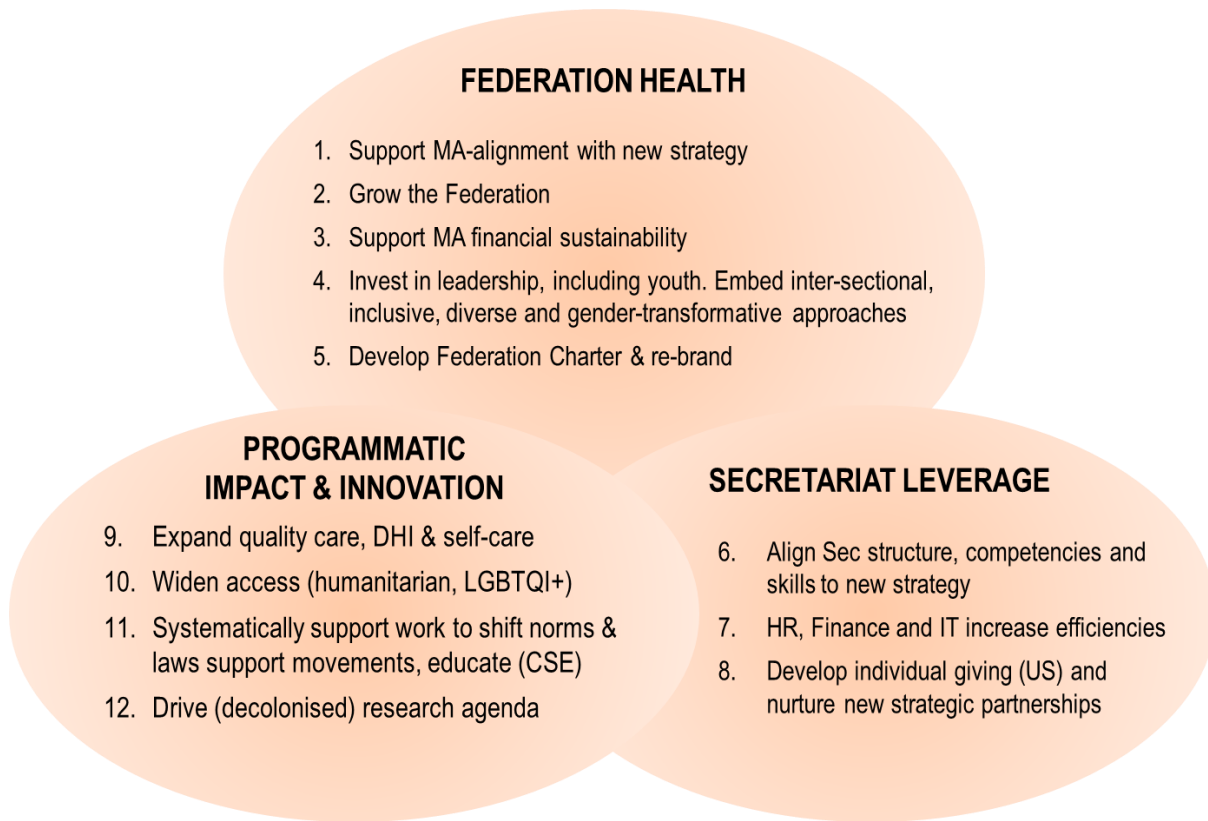

Figure 2. Secretariat Priorities 2023-25

PART 1: PLANNING

The planning section of the business plan contains narrative descriptions of focus areas of each of the six regions and four divisions that collectively comprise the secretariat. Additional to the narrative descriptions, all units in the divisions and regions have completed detailed lists of their planned projects, which contains the essential information required to manage and track their delivery. The data is stored in a global dashboard that will be monitored and updated at quarterly meetings. The dashboard includes data on budget, key performance indicators and key risks. An abridged version of the project list can be viewed in Annex 3 of the business plan. Additional detail pertaining to the risks is included as Annex 4.

IPPF Director General: Alvaro Bermejo

Total Secretariat staff: 288.6

Offices:

The seven main offices are based in Brussels, Delhi, London, Kuala Lumpur, Mexico City, Nairobi, and Tunis.

Total Secretariat Projects: 207

Pillar 1: Center Care on People: 49 projects

Pillar 2: Move the Sexuality Agenda: 32 projects

Pillar 3: Solidarity for Change: 10 projects

Pillar 4: Nurture the Federation: 116 projects

Restricted: 65 projects

Unrestricted Core: 36 projects

Staff Core: 93 projects

Designated: 13 projects

Director General's Office	Director General's Office Risk & Assurance

Hosted entities: SAAF, Nexus, SheDecides, FP2030 and Pacific Islands Regional Multi-Country Coordinating mechanism

Africa Regional Office (ARO)

Main Office: Nairobi, Kenya; suboffice in Abidjan, Cote d'Ivoire

Regional Director: Marie-Evelyne Petrus Barry

Staff: 62

Member Associations: 32

Collaborative Partners: 6

Context: There is strong political support for maternal care and HIV services in the region. The commitments are not always backed up with resources. Many areas of SRHR lack behind. Worryingly, access to modern contraceptives, safe and legal abortion and comprehensive sexuality education is decreasing. And, conversely, indications are that child marriage and genital mutilation have increased. Regional SRHR inequity not only concerns the type of care, but also who receives it. Women, young people, LGBTIQ people, sex workers, indigenous peoples and other marginalized populations consistently lack access to affordable quality SRHR care.

Office Focus: In 2023-25, the Africa region will drive performance in all four pillars of the strategy. The region will build on its platform of advocating for human rights and universal SRHR at regional and national platforms. It will work with African institutions and human rights actors to fulfil their SRHR commitments. In the spirit of coming together, the region will support learning exchanges among African MAs, and other strategic partners. resource mobilisation and innovative financing solutions will be one of the main capacity sharing priorities. But the exchanges will also involve support for modernising SRHR care, not least for young and marginalised individuals. New collaborative partnerships will be identified with organizations and networks devoted to marginalized groups.

The updating of the region's data systems is a clear priority. It will help produce reliable and current performance data, which will be used for decision-making, learning and accountability. This work will extend to the member associations, who will be supported to better collect and use statistics, including sex-disaggregated statistics and evidence-based information as required under the new results framework. It will help expand the culture of mutual accountability between members and the secretariat.

Americas & the Caribbean Regional Offices (ACRO)

Main Offices: Mexico City, Mexico and Port of Spain, Trinidad and Tobago

Regional Director: Eugenia Lopez Uribe

Staff: 20.5

Member Associations: 15

Collaborative Partners: 9

Grant-receiving CFPA Affiliates: 1

Context: The region of the Americas and the Caribbean is the most unequal region of the world. The inequality has been exacerbated by Covid-19, which devastated the region. The pandemic undermined decades of social progress, including access to sexual and reproductive healthcare and gender equality. The region has set an example to the rest of the world in expanding access to sexual and reproductive healthcare, including contraception. And yet, unacceptable gaps persist, particularly for marginalized people, many of whom live in poverty. The region is prone to involuntary migration tied to political unrest and climate emergencies. With donors leaving the region, democracy under attack and a polarized movement, the SRHR opposition has successfully constrained the rights agenda, especially on abortion and LGBTIQ+.

Office Focus: For the next 3 Years (2023-2025), ACRO is committed to join efforts and work in close collaboration with MAs and other partners to advocate and increase and widen access to quality SRHR services for diverse populations, aligning with IPPF's "Come Together" strategy. Our priority is to improve the integration of the Americas and The Caribbean, and, collectively, increase our profile in the region with the various actors: feminist organizations, governments, agencies, donors, the media, service users, activists, among others; along with adapting the new IPPF brand to our regional context. We will work with other networks and organizations in the region. We are also committed to transform ACRO to be a high performing, accountable regional office that is fit for purpose. We are committed to fully embrace feminism, antiracism and intersectionality values and practices in the work we do as part of the Federation.

Arab World Regional Office (AWRO)

Main Office: Tunis, Tunisia

Regional Director: Fadoua Bakhadda

Staff: 17

Member Associations: 14

Collaborative Partners: 3

Context: The region is under severe strain from ongoing humanitarian emergencies. Half of the countries where IPPF is active, struggle with political instability or war. The practicalities of operating in these contexts are extremely difficult. The region is culturally and politically conservative. Many countries have rigid laws that restrict civil society and prohibit dissent. Certain aspects of SRHR for women and girls enjoy political support. But marginalised populations are chronically underserved, and often are not able to access care. The SRHR opposition controls the social media narrative, and they have targeted under-educated working- and middle-class audiences. Youth SRHR has large potential for growth.

Office Focus: The regional office will work closely with the MAs as they seek to align with the new strategic framework. This will primarily be done through a series of webinars and discussions. The region will pay particular attention to strategic areas that are under-represented in the current footprint, such as LGBTQ+, Abortion self-care, Quality of care, GBV interventions, HIV, and humanitarian preparedness.

Youth-centered approaches are a key focus. Efforts will be made to connect MAs with a strategic focus on youth engagement and leadership, to discuss youth-led programming. Digital health interventions as well as digital communications have important youth components that will be explored. As an innovation, the regional team will develop communities of practise among the MAs that focus on SRHR delivery. The regional office will work with them to discuss best practices and linking MAs to grassroots and feminist movements. Lastly, the region will work towards strategic pillar 4 to identify and recruit new MAs to join IPPF and grow the resources and impact of members in the Arab World.

East & Southeast Asia and Oceania Regional Office (ESEAORO)

Main Offices: Kuala Lumpur, Malaysia (with a suboffice in Suva, Fiji)

Regional Director: Tomoko Fukuda

Staff: 48 **Member Associations:** 22 **Collaborative Partners:** 2

Context: There are an estimated 140 million women with unmet need for family planning in Asia Pacific. Almost 1 billion young people are living in Asia and the Pacific, accounting for 53% of the world's adolescent and youth population. Their unmet need for modern contraception is high: almost half of all 15-14 years old with a demand for FP are not using an effective method. No country in the region currently provides a comprehensive sex education school curriculum that meets international standards. Most countries have declining fertility and governments are trying different approaches to minimize its impacts.

Office Focus: The region will support MAs to cover the capacity needs identified in their three-year business plans. Advocacy, partnership, and resource mobilization are the most common themes. There will also be a big 'push' to improve and update care, especially Digital Health, self-care, and provision of IPES+ including safe abortion, HIV and SRH integration and infertility care. The region will integrate sexual pleasure in partnership with The Pleasure Project, strengthen youth structures and networking and scale up CSE including digital. The region will also expand its focus on social movements and scoping opposition. It will work with MAs on issues of SGBV, gender, intersectionality, and sexuality lens in their work. The region will work to internalise and champion anti-racism & anti-discrimination among the office staff, while supporting MAs to do the same. The region will also update its strategies to widen access for marginalised groups such as LGBTQI, PWD, PLHIVs and indigenous groups. Lastly, the region will focus on strengthening health systems including data management, supply chain management, financial management and restricted project management.

SUBREGIONAL OFFICE IN THE PACIFIC (SROP)

ESEAOR is home to a subregional office, based in Suva, Fiji. The subregion has, uniquely, developed its version of the IPPF strategy, which is called Niu Vaka II. It runs from 2023 to 2028. The subregion's key ambition is to entrench IPPF's position as a leading quality SRHR provider that champion the rights and voices of all, especially young people.

Similar to the global IPPF strategy, Niu vaka II targeted interventions in health service provision, demand generation at the community level, awareness raising,

as well as policy advocacy to improve the enabling environment. The subregional office will support this effort while engaging with the public health sectors and line ministries in the subregion.

In a region severely impact by the climate crisis, the subregion will deliver enhanced management and coordination between humanitarian and development programs to aid delivery of comprehensive SRH care across the region at all stages of the humanitarian-development cycle.

Core clinical and outreach activities will still be a focus during this period, but by leveraging the gradually expanding network of partner and government organisations the subregion will aim to better reach the marginalised and underserved.

In 2023 the SROP team and the MAs will undertake the following priority actions:

- A new eCMIS tool will be rolled out from the end of the year.
- Expanded analysis and action planning on improved and strengthened governance.
- Launching of an mHealth application in the first quarter of next year
- Salary review for all MAs
- Exploring new cervical cancer outreach and self-testing programming
- Ongoing integration of Humanitarian/Development Nexus activities

European and Central Asian Regional Office (ENRO)

Main Office: Brussels, Belgium

Regional Director: Caroline Hickson

Staff: 26.6

Member Associations: 30

Collaborative Partners: 10

Context: The region operates in Europe and Central Asia. The Russian war in Ukraine has heightened political tensions and exacerbated divisions in the region and beyond. The flood of refugees from Ukraine has diverted funding and attention from development cooperation budgets and placed a greater burden on health and social protection systems in Europe. Staunch defenders of SRHR, such as Sweden and Finland, are weakening their support, which threatens the agenda both domestically and abroad. The region has seen progress on abortion, modern contraception, and comprehensive CSE, in many countries, including France, Spain, Ireland, Slovakia and others but opposition is redoubling efforts to reverse these gains. Many MAs have experienced direct opposition attack, often linked to the connection with IPPF, eg N Macedonia, and reaching the levels of bomb scares and threats to personal safety of Rutgers staff in the Netherlands.

Office Focus: The key focus of the region, as defined by the MAs, is to protect Europe from backsliding on human rights. This is an ongoing focus. The region will continue to drive SRHR and gender equality in EU policy, budgeting, and programming, in both the EU's domestic and international development agendas. This will be done in collaboration with the MAs. The important work social movement work will be escalated over the course of the three-year period. With no end in sight to the Russian war in Ukraine, providing support to our Ukrainian MA and to our MAs and multiple partners in bordering countries will continue to be a huge priority. IPPF's multi-million-dollar humanitarian Ukraine response programme will mitigate sexual and gender-based violence amongst those affected by the conflict.

London Office

External Relations Division (ER)

Division Director: Mina Barling

The division will continue define priorities to align to the new IPPF strategy at a national, regional, and global level to help shift norms, change policies and laws on SRHR, increase brand visibility through digital communications and media. It will center youth in its work and continue to grow the individual giving programme in the US. It will continue to work in the spirit of the new IPPF through an anti-racist, decolonized and intersectional feminist lens. In addition to comms capacity sharing the global comms team will lead on the global rebrand and will work closely with the MA rebrand committee to ensure the process of one of co-creation and inclusion.

The Solidarity for Change and Voice (SCV) team will consolidate prior Communications and Advocacy efforts with a new strategic direction. SCV will continue to support MAs on national, regional, and global advocacy opportunities and processes in coordination with Regional Office colleagues through mentoring, accompanying, and training. The team will continue to support MAs comms through regional MA comms workshops from digital communications to humanitarian communications. These workshops are led by experts in regional offices as well as external agencies. For 2023–2025 we would like to expand these to be MA-led and youth-focused with a digital-first approach.

The Donor Relations and Fundraising Team (DRF) team will develop a new Global Income Generation Roadmap towards supporting investment for the new Strategic Framework and will prioritize developing new strategic partnerships to diversify funding to ensure we are less susceptible to external funding shocks from institutional government donors. Given a cohort of new roles in the Secretariat will have resource mobilization responsibilities, we will also ensure these roles all understand GIG approaches and tools. Focusing on optimising proven practice as well as tools in 2023 will enable IPPF to effectively draw on resources and talent from across the organisation over the next three years.

Finance and Technology Division (FTD)

Division Director: Varun Anand

The division will work to modernise the Finance & Technology functions providing high quality services across the secretariat, including generation of accurate and timely management reports, project report and annual audited accounts.

The division will transform the finance function from being transaction focussed to analysis and reporting focussed. As part of the above, and further to the approval of the realigned structure of the secretariat, a shared services unit will be established in Delhi, supporting all secretariat offices with accurate and fast transaction processing, improved compliance oversight, procurement management and budgeting, forecasting and reporting systems, in the coming year. As part of the initiative, the division will also set up a strong technology hub-and-spoke model that serves the secretariat in a more seamless manner. The technology function will shift to cloud-based solutions, ensuring mean uptime of high-quality systems and processes to 99% level.

The division will provide strong and efficient administration support to the London office. Transformative approaches will include, adoption of disruptive technologies unifying and simplifying systems and processes thereby removing redundant/repetitive efforts and ensuring ease of access to analysed data for proactive decision making. Some of the key solutions being deployed include setting up a Member Association dashboard, strengthening NetSuite systems, automating workflows relating to time management, vendor management and contract management. This will ensure that the Secretariat becoming more MA centric and support functions becoming more responsive and nimbler.

PEOPLE, OFFICE, AND CULTURE DIVISION (POC)

Division Director: Claire Jefferey

The division is devoted to the people working at IPPF and the culture within the Secretariat. The main priority for 2023 is to co-ordinate the overall secretariat realignment. This entails filling of 89 vacancies in the new structure, increasing diversity and bringing in the new capabilities required to deliver the Strategic Framework with appointments confirmed by September 2023. The division will also manage onboarding to ensure the right people are in the right place within the cost envelope and mobility support is appropriate and consistently applied. The division will lead the co-design of a phased Induction to transition to the new structure and ways of working for new starters and existing colleagues to start in September 2023. This will be a modular programme including tools on the 'moodle' platform.

Further priorities include the following: Co-design a mechanism with Portfolio Management and Bid Management for Workforce Planning to efficiently deploy and adapt resource within cost envelope; effective transition of Safeguarding & Incident Management to the new structure and improve confidence of Secretariat colleagues in the System; completing the annual Performance, Development & Pay Review applying the agreed actions from 2022; and, lastly, to ear-mark the Anti-Racism priorities.

MA Development and & Impact Division (MA D&I)

Division Director: Manuelle Hurwitz

The division is a result of the 2023 secretariat realignment. It brings together elements of the former programmes division and the DGO. Its focus is principally oriented towards the Member Associations, working closely with regional offices. The division incorporates performance tracking and portfolio management of restricted and designated projects; medical leadership and clinical governance; commodities procurement; organisational performance, impact & learning; governance & accreditation; and strategy and planning.

The new division will a) ensure technical/SRH expertise and capacities are shared across the Secretariat and MAs – as well as with external partners – so that the Federation remains relevant to its environment and the needs of its clients; and b) deliver on the new strategy, collecting and utilizing data, sharing learnings, fostering innovation while ensuring compliance with IPPF and restricted donors' priorities and requirements.

The division will continue to ensure high quality technical and clinical guidance is developed and disseminated to MAs, and facilitate research, cross-learning and capacity sharing across MAs. It will also support the Secretariat to strengthen its accountability to MAs through the Secretariat Accountability Mechanism (SAM). MAs will be supported to manage their FP & RH supply chains through timely procurement and the strengthening of strategic partnerships for donations.

Continued support for the design and high-quality delivery of restricted programmes and the strengthening of research and partnership development will ensure continued donor funding for strategic priorities. Decolonized and gender transformative approaches will be at the core of implementation.

The effort to secure strategic alignment with MA strategies is led by this division, as is the work to support governance and MA accreditations.

South Asia Regional Office (SARO)

Main Offices: New Delhi, India

Regional Director: Sonal Mehta

Staff: 31

Member Associations: 8

Collaborative Partners: 1

Context: Although the region has few member associations, it covers a population of over 1.7 billion people, or about 21 percent of the world's population. The region is diverse but has a shared history of colonialism, which continues to affect its legal framework and, in areas, perceptions about gender and sexuality. In India, 78% of abortions among adolescents are unsafe and thus carry an elevated risk for complications. Despite the access to contraception, more than 71% adolescent girls who want to avoid a pregnancy do not use a modern method (Guttmacher). Whereas the Indian economy is booming, Afghanistan is among the world's most food insecure countries with an enormous internally displaced population and extreme curtailment of rights and care for women, girls and marginalised populations.

Office Focus: SARO is committed to expanding choices and widening access of services, especially Digital Health Interventions. This will involve leveraging partnership with private sector actors and providers. The aim is to offer respectful SRHR care to all marginalized and excluded populations with a focus on LGBTQI+ and young people. Youth is a large priority for the region.

The region will work to engage more young people from diverse groups through traditional and new platforms, such as social media platforms. In addition to provision of CSE in school curricula, the region will expand CSE to out-of-school youth in all their diversity through alternative platforms. This will require safe spaces for SRH information and services to LGBTQI+ and young populations. This work will be done by employed youth advocates. The work will link to gender transformative approaches and drive change in norms through awareness building and community-based action. Advocacy for safe abortion care in the restricted settings continues to be fundamental.

PART 2: BUDGET

Following detailed consultation and deliberation, the Secretariat has prepared its revised consolidated budget covering unrestricted core, restricted and designated funding sources for the year 2023. The details of this budget are provided in the subsequent paragraphs.

a) Total Income by Office/Division

The following table presents the break-up of projected income by office and funding source in the revised budget as compared to the original budget approved by the Board of Trustees In Dec 2022.

INCOME (excl hosted prog)												
Region/Division	Revised Budget				Original Budget				Variance			
	Restricted	Designated	Unrestricted	Total	Restricted	Designated	Unrestricted	Total	Restrict	Designat	Unrestr	Total
ACRO	34	0	0	34	0	0	0	0	34	0	0	34

c) 2023 Headcount Comparison

The head count (FTE) across the secretariat has reduced after the realignment from 308 to 288.6, broken down by office/ division In the table below.

Region/Division	Revised Budget Headcount (FTE)	Original Budget Headcount (FTE)
ACRO	20.5	16
ARO	62	79
AWRO	17	20
EN	26.6	31
ESEAOR & SROP	48	51
SARO	18	31
DGO	5	7
F & T	39.5	21
POC	9	6
Programme	21	21
Ext Relations	22	25
TOTAL	288.6	308

d) Transition Staff (FTE and Costs)

Region/Division	Headcount	Costs			
		Restricted	Unrestricted	Designated	Total
ACRO	7	-	213,993	-	213,993
ARO	16	92,997	566,739	42,476	702,212
AWRO	2	-	29,476	-	29,476
EN	4	38,129	15,630	5,616	59,375
ESEAOR	6	25,049	137,454	-	162,503
Ext Relations	5	87,580	216,156	-	303,736
London FT	6	36,022	30,625	131,496	198,143
London Programme	3	131,670	-	-	131,670
POC	2	-	46,805	-	46,805
SARO	13	24,771	96,094	-	120,865
SROP	3	26,931	18,330	-	45,261
TOTAL	67	463,148	1,371,304	179,587	2,014,040

Transition staff are being defined as any staff member continuing with IPPF beyond April but not mapped to a role in the realigned organogram.

e) Income & Expenditure for Hosted Programmes

The overall budgeted income and expenditure for Hosted Programmes included in the revised budget for the year 2023 is presented below:

Project Name	Hosted Progs														
	Revised Budget						Original Budget						Variance		
	Income	Grants	Staff Costs	Other Secretariat Costs	Total Exp	Income	Grants	Staff Costs	Other Secretariat Costs	Total Exp	Income	Grants	Staff Costs	Other Secretariat Costs	Total Exp
Nexus	1,996	0	407	410	817	773	0	409	362	770	1,224	0	(2)	48	46
Safe Abortion Action Fund	5,238	4,790	731	752	6,273	4,684	4,904	824	705	6,433	554	(114)	(93)	47	(160)
SheDecides Support Unit	1,028	2	639	455	1,096	250	0	488	19	507	778	2	151	437	589

Pacific Islands Regional Multi-Country Coordinating Mechanism	0	0	22	110	132	0	0	0	0	0	0	0	22	110	132
TOTAL	8,488	4,792	2,265	1,895	8,952	5,707	4,904	2,370	1,352	8,626	2,781	(112)	(104)	543	326

Note: Pacific Islands Multi-Country Coordinating Mechanism and UNF-FP2030 projects had not been included as a hosted programme in the original budget.

f) Streams Allocation 2023 – Original vs revised budget

A breakdown of budgets allocated under each of the streams remain unchanged, except for counter financing grant. The tender for this was floated with all the member associations, however none of them succeeded with their bids. The numbers are presented comparing the revised to the original budget in the table below:

Activity	Revised Budget	Original Budget
Stream 1 Grants incl. allocation to voucher system	33,902	33,902
Stream 1 Collaborative Partners Grants - Donor Support	190	190
Stream 2 Allocation to High Income countries	800	800
Stream 2 Consortium Based Grant	2,000	2,000
Stream 2 Funds and Centres	1,000	1,000
Stream 2 Regional Opportunity Grants	540	540
Stream 2 Counter Financing MA	-	600
Stream 3 Humanitarian Support	1,200	1,200
Stream 1- Sustainability Project	915	915
Stream 1- Sustainability Project (Prof Services)	85	85
General Assembly	400	400
Parliamentary Groups and Japan Relations	210	210
TOTAL	41,242	41,842

g) Designated Project Details

A project wise breakdown of budgets allocated under each of the designated funds in the revised budget against the original budget are presented in the table below.

Project Name	Designated Projects											
	Revised Budget				Original Budget				Variance			
	Grants	Staff Costs	Other Sec Costs	Total Exp	Grants	Staff Costs	Other Sec Costs	Total Exp	Grants	Staff Costs	Other Sec Costs	Total Exp

22.P0883 CERV - Complementary activities	130	0	0	130	127	0	0	127	(2)	0	0	(2)
18.P0314 Communications Investment Plan CIP	0	0	78	78	0	0	87	87	0	0	9	9
Transition Plan	0	42	0	42	0	0	0	0	0	(42)	0	(42)
Others	(2)	8	(25)	(19)	1,821	13	2	1,837	1,823	6	27	1,856
TOTAL	3,796	4,502	6,313	14,611	3,288	4,160	4,571	12,019	(507)	(342)	(1,742)	(2,591)

The increase in designated expenditure is primarily contributed by:

- BMZ Ukraine budget spending US\$ 1,058k
- HR induction and training additional request US\$ 500k

- Solution 7 budget increased by \$425K due to transition budget draw down US\$ 680k and decrease by US\$ 214k for MA dashboard budget.

Decision Required by C-FAR

Recommend for approval to the Board of Trustees

- 1) the revised plan and budget for 2023.
- 2) designation of funds to cover payments towards:
 - Moving ACRO office from Columbia to Mexico US\$ 200k.
 - Induction and training of staff US\$ 500k.

Annex 1: Detailed Secretariat Priorities

FEDERATION HEALTH

1. **Support MA-alignment with the new strategy.** MAs are what set IPPF apart. They join the Federation to have greater impact than they would have alone.
 - 1.1. Help MAs internalize new Strategy (Come Together) and develop MA strategies and 3-year BPs. Much of this will need to happen in 2022, but alignment work will no doubt continue through 2023.
 - 1.2. Adapt [secretariat contracted] restricted projects, e.g., new WISH Dividend, and frameworks to better align with new Strategy.
 - 1.3. Support new set of Federation Reference Centres and Funds (review taking place in 2022).
 - 1.4. Support rollout of Federation wide anti-racism GA statement and expanded Programme of Action¹
2. **Grow the Federation.** Identify and bring in new members in the countries with highest need and/or policy influence and strengthen delivery capacity of existing MAs.
 - 2.1. Review and shape the work of existing MAs relevant to context [geography & focus], identifying strengths and weaknesses most relevant to strategy/delivering on results framework, and optimise capacity sharing/support accordingly. In particular, support MAs to enhance programme management.
 - 2.2. Systematically expand membership to priority countries.
 - 2.3. Roll out re-designed accreditation (cycle IV) and mainstream implementation of MA governance reform initiative.
 - 2.4. Step up roll out of tailored assurance framework and safeguarding work.
 - 2.5. Support MAs with volunteer recruitment and development through updated guidelines and peer-to-peer learning from MAs with strong volunteer bodies.
3. **Support MA financial sustainability.** An objective of Strategy 2022 was to double MAs' domestic income between 2016 and 2022 but instead it has gone

¹ Also linked to 4 and 6 as applies to both MAs and Secretariat programmes, systems and culture.

slightly down. The Secretariat supported the establishment of a Social Enterprise Hub (FPASL). More work is needed in this important area.

3.1. Improve the impact of Social Enterprise Hub, increasing its MAs visibility / recognition and readiness to draw from it.

3.2. Support insertion of MA clinics / programmes of work in national health care / insurance/education systems to sustain SRHR service delivery and CSE (directly by MAs or indirectly according to context).

4. Invest in leadership, including youth. Embed inter-sectional, inclusive, diverse and gender-transformative approaches.

4.1. Continue development programme for senior MA (IMPM+) and Sec staff (Forward Institute)

4.2. Support implementation of Stream 2 Youth consortium.

4.3. Take inter-sectional approach towards inclusion and diversity within our existing systems and work.

4.4. Support a systematic approach to leveraging youth networks to deliver more impact nationally, regionally, and globally

5. Develop Charter and Re-brand. The Board of Trustees has recommended that following GA approval of the Strategy it is followed by the development of a Federation Charter through which MAs and Secretariat sign up to a shared set of values.

5.1. Develop charter through strong participatory process that secures MA momentum.

5.2. Global values discussion and consultation. Support to determine brand awareness, perception and strategy to increase reach and frequency in over 100 countries.

5.3. Global rebrand adopted by the Secretariat and supported by the Federation that clearly speaks to the values and identity of the new IPPF.

SECRETARIAT LEVERAGE: The Federation and its supporters want a Secretariat that both leads and serves.

6. Align Secretariat structure, competencies, and skills to the new strategy.

We have moved decisively towards a unified Secretariat with a systematic approach to job evaluation, salary benchmarking, compensation, and benefits. While much is yet to be done, progress is already reflected in our top-ranking position in the Global Health 50/50 index.

6.1. Culture Framework: Implement secretariat Anti-racism Plan of Action (anti-discrimination & inclusion), engagement strategy.

6.2. Adjust HR policy to post-pandemic world of work. Staff well-being.

6.3. Restructure. Change management, skills/capability matrix. Consider a Secretariat-wide Young Employee Programme (age 19 to 25).

7. HR, Finance, and IT increase efficiencies (to support people, process and system effectiveness).

7.1. Improve performance, people management, learning and development, recruitment.

7.2. Embed and leverage HRIS

7.3. Fit for purpose, integrated and functional ERP for project and financial management. Embed and ensure compliant usage of NetSuite, including operational guidance and training.

7.4. Stabilise the new P&B tool to undertake and monitor the planning and budgeting at the Secretariat level.

7.5. Unified Secretariat-wide financial policies and procedures implemented and documented.

7.6. Expand the workflow automation in grant management streamlining contract tracking and management.

7.7. Automate MA planning, budgeting, and reporting and create an MA dashboard to smoothen MA and partner engagement with the secretariat.

7.8. Outline 2023–25 IT journey top deliverables.

8. Develop individual giving (US) and nurture new strategic partnerships.

8.1. Scale up US individual giving effort and stabilise presence there [UN/US].

8.2. Invest in new partnerships that will bring IPPF closer to its mandate, and communities closer to IPPF.

PROGRAMMATIC IMPACT & INNOVATION

9. Expand person-centred care including, DHI & self-care. IPPF will provide the fullest possible range of affordable and quality sexual and reproductive care and commodities. Improve quality care standards, expand contraceptive and abortion services, HIV integration, SGBV programming and advance digital and self-care.

9.1. Roll out new clinical guidelines, adapt/develop Quality of Care audit methodology, IPES+

9.2. Build and implement a common digital health interventions framework [mapping interventions, highlighting issues around effectiveness, quality of care, no harm approach and relevance to specific contexts/pop groups].

- 9.3. Facilitate cross-learning and capacity sharing among MAs and programmes focused on abortion self-care, including the GCC Global Care Consortium.
 - 9.4. Optimization of MA facilities for HIV prevention and care including new technologies (Stream 2)
10. **Widen Access.** As a Secretariat, we shall prioritise support to provide access to lifesaving SRHR services to those caught in humanitarian crisis or excluded because of their sexual orientation or gender identity.
- 10.1. Mainstream and scale up feminist humanitarian response.²
 - 10.2. Increase MA capacity through reference centre investments and preparedness initiatives.
 - 10.3. Mainstream, further develop Standard Operating Procedure, management of emergency response.
 - 10.4. Support MA access to quality commodities.
 - 10.5. Roll out tools to track and document IPPF “client profile”, e.g. “vulnerability” assessment” or CEIs methodology (WISH) and use client level data to widen and expand access.
11. **Systematically support work to shift norms and laws, support movements and educate (CSE).** Deliver a strategic, integrated approach to achieving social and legislative change (and preventing regression) that unleashes IPPF’s potential as an influential political actor/voice (arising from working at national, regional, global levels and across multiple geographies).
- 11.1. Further build Movement / opposition / winning narratives centres.
MAP
 - 11.2. Advocacy to get into curricula, education policy and scale up of in and out of school [gender/norm transformative] CSE
 - 11.3. Systematically embed SRHR at the heart of gender equality and prevention of SGBV
12. **Drive (decolonised) research agenda, evidence and KM.** Client-centred information systems will be strengthened and expanded as the information available to the front-line changes dramatically and as teams better define their own information needs. These new systems will give a much clearer view of how a team's performance contributes to the whole and will have a strong focus on customer-oriented value.
- 12.1. Continue to roll out Data Management Strategy (12 focus MAs have been identified and training starting in July).

² *Feminist* humanitarian response is used as short to describe a humanitarian response that does not overlook the needs of women, and in which their leadership and voices are considered. You can find a more detailed description [here](#) or [here](#)

- 12.2.** Help set the research agenda for the federation in line with the strategy results framework and facilitate the identification of research priorities by MAs, utilizing available data and partnering with other local actors for additional data and research support.
- 12.3.** Better monitor and increase our overall impact as a Federation, through implementing our new multi-level Results Framework, supporting MA data systems and applying learning from this and from BP and Centre implementation.

Annex 2. Secretariat Projects by Region

Region / Division	Unit / Team	Project Code	Project Name	Project Type	Project Description (50 words)
Africa Regional Office	Corporate Services	21.P0734 West Africa Sub Office & ARO stream2 Grant	West Africa Sub Office	Unrestricted Core	Subregional office support
Africa Regional Office	Corporate Services	22.P0791 ARO Activity costs - 2022	P0791 ARO Activity costs - 2022	Unrestricted Core	This project aims at ensuring robust and operational financial management systems are in place that support the Africa Regional Office and sub-offices through leveraging with NetSuite platform.

This through regional on-line, trainings and meetings and giving MA by MA specific guidance.
Arab World Regional Office	External Relations	Staff Core Project (no current funding)	Staff Core Project (no current funding)	Staff Core Project	To support AWRO in building relationships with potential donors and submit winning proposals. And to inform MAs of funding opportunities related to their work and provide them with TA to submit high quality proposals. Moreover, and in collaboration with US focal point at CO, TA will be provided to relevant MAs to establish relationships with USAID a/o USAID partners at the national level.
Arab World Regional Office	MA Support & Development	04.P0570 Access to contraceptives in remote areas	P0570 Access to contraceptives in remote areas	Restricted	The Pauli Fund is a special programme of IPPF, was established in 2003 by the generous contribution of an anonymous donor who wishes to help poor women in remote areas who have few, if any, ways to avoid unwanted pregnancies. If they can exercise control over their own fertility, they will be better able to avoid abortion, and these unwanted pregnancies. The donor is also concerned that many women in the rural hinterlands are often the victims of rape or other forms of non-consensual sex. Contraceptives and family planning services, supported by the Pauli Fund, are meant to provide cost-effective, safe and affordable methods to the women who live in remote areas. Furthermore, if they are able to control their fertility, they are less likely to be forced to move, with their families, away from their rural locations to seek survival in equally impoverished and densely populated urban centres, where their lives are unlikely to improve.

Arab World Regional Office	MA Support & Development	18.P0449 YEMEN	P0449 SRH in Emergencies & Primary Health care PHC Services in Yemen to IDPS	Restricted	8 month duration (July 2022-February 2023); \$150,000 USD; protracted emergency related to conflict and economic collapse exacerbated by COVID-19 and heavy rains and flooding; geographic areas of intervention include Sana'a and Aden with target population of 840,000 people. Provision of antenatal, postnatal, safe delivery, new-born care, post-abortion care, contraceptive services, STI treatment, and awareness raising of services, health and hygiene promotion and GBV IEC materials and GBV referral pathways. 24/7 BEMONC will be provided through two clinics staffed by additional staff, commodities, and equipment (one in Sana'a and one in Aden) with referrals for pregnancy/delivery complications to hospital. YARH will engage actively with OCHA and the Logistics Cluster to identify opportunities to reduce bottlenecks of commodity pipelines to Sana'a and Aden.
Arab World Regional Office	MA Support & Development	18.P0450 FGMAWR	P0450 Elimination of Female Genital Mutilation in 3 ARAB World Region countries	Restricted	Project approved in May 2022 as an extension of the project titled Elimination of Female Genital Mutilation (FGM) in Mauritania, Sudan and Somaliland with main 4 objectives:
Arab World Regional Office	MA Support & Development	21.P0792 NORAD FGM 2021	P0792 NORAD FGM 2021	Restricted	The mission of the FGM Center of Excellence is to strengthen and inform a woman-and girl-led response to all forms of Sexual Gender-Based Violence (SGBV), including FGM. The Centre of Excellence will address the needs of girls and work on all forms of SGBV, including harmful practices.

Arab World Regional Office	MA Support & Development	22.P0849 Japan Supplementary Budget for Palestine	Japan R3 Supplementary Budget for Palestine	Restricted	
Arab World Regional Office	MA Support & Development	22.P0849 Japan Supplementary Budget for Palestine	P0849 Japan R3 Supplementary Budget for Palestine	Restricted	Sexual and reproductive health services and rights (SRHR), including sexual and gender-based violence (SGBV) services, are accessible, promoted and utilised for vulnerable and underserved Palestinian women and girls living in humanitarian settings. The project will be implemented in the sites of :Gaza Strip, Hebron, Halhoul, Bethlehem and Ramallah, the project aim at two objectives: Objective 1: To enhance the quality of and access to clinic-based SRHR services for women and youth in vulnerable and underserved communities in Gaza and the West Bank through 5 PFPPA static clinics. Objective 2: To expand access to high-quality, essential life-saving sexual and reproductive health services to communities outside the catchment areas of static clinics in Gaza and the West Bank.
Arab World Regional Office	MA Support & Development	22.P0898 AECID	Spanish Agency for International Development Cooperation-AECID	Restricted	
Arab World Regional Office	MA Support & Development	P0169	P0169 AWRO Humanitarian Assistance	Unrestricted Core	Humanitarian Program Support
Arab World Regional Office	MA Support & Development	Staff Core Project (no current funding)	Governance & Accreditation	Staff Core Project	To support MAs' in enhancing the good governance work and adherence to IPPF standards

Arab World Regional Office	MA Support & Development	Staff Core Project (no current funding)	Proposal Stage	Staff Core Project	OSRA activity is to improve family health outcomes by reinforcing the national family planning and reproductive health (FP/RH) program in partnership with the Ministry of Health and Population (MOHP). The OSRA activity will achieve this purpose through the three pivotal results: The OSRA activity will closely collaborate with the MOHP and potentially with the Supreme Council of University Hospitals (SCUH), the Ministry of Social Solidarity (MOSS), the National Population Council (NPC), and other Government of Egypt (GOE) entities and stakeholders to attain its results.

It is also in charge of facilitating the building of advocacy capacity at the MA level,

East & Southeast Asia and Oceania Region	External Relations	SRHR Communication and Campaigns	SRHR Communication and Campaigns	Staff Core Project	This project is intended to raise the profile and brand recognition of IPPF and MAs in the Asia Pacific region using the communication platforms of ESEAOR (website, social media and other communication platform). The project will lead advocacy and social media campaigns, including guidance to Member-Associations.
East & Southeast Asia and Oceania Region	Humanitarian Team	17.P258 HCS	P0258 IPPF Core : Humanitarian Core Spend	Unrestricted Core	Global Humanitarian Team provides strategic, res mob, technical and programmatic support to IPPF partners on emergency preparedness, response and recovery. The GHT will provide ongoing capacity building, technical assistance, surge support and resource mobilization to achieve Strategy 2028 goals related to expanding humanitarian action and reach across the federation. This covers restricted projects, core projects (e.g. Stream 2) and Stream 3.
East & Southeast Asia and Oceania Region	Humanitarian Team	22.P0797 SPRINT IV	P0797 DFAT SPRINT IV	Restricted	Improve access to lifesaving SRHR services for crisis-affected populations in all their diversity through implementation of the MISP (minimum initial service package) for SRH in crises. The purpose of the program is to contribute to reducing SRH-related mortality and morbidity, SGBV, HIV and STI transmission, and unintended pregnancies in 14 focus countries across the Indo-Pacific.
East & Southeast Asia and Oceania Region	MA S&D Pacific	18.P0347 SROP ADMIN AND SUPPORT	P0347 SROP ADMIN AND SUPPORT SERVICE FIJI	Unrestricted Core	Support costs for the SROP office to support operations to better support the Pacific MAs

East & Southeast Asia and Oceania Region	MA S&D Pacific	18.P0420 PRIMCCM	P0420 Pacific Islands Regional Multi-Country Coordinating Mechanism	Restricted	24 members on the PIRMCCM drawn from the national country coordinating mechanisms of the 11 Pacific Island Countries that are sub-recipients of the Global Fund grants. Key affected populations and persons living with and affected by HIV, TB and Malaria are also represented. The donor community and the international technical assistance agencies complete the composition of members.
East & Southeast Asia and Oceania Region	MA S&D Pacific	19.P0494 DFAT Pacific Strategy 2019-2022	P0494 DFAT Niu Vaka Pacific Strategy 2019-2022 (SROP)	Restricted	<p>There are high rates of adolescent pregnancies, endemic levels of sexual and gender based violence and a growing prevalence of sexually transmitted infections (STIs). Restrictive abortion laws in most countries mean information about abortions, including the prevalence and effects of unsafe abortion, is limited. Restrictive laws around sexual orientation and gender identity, also prevent many young people from accessing their sexual and health rights.</p> <p>These sexual and reproductive health and rights (SRHR) challenges directly contribute to a wide range of negative short and long-term consequences for the health and wellbeing of Pacific young people, their families and communities.</p> <p>As such SROP were assisted through the Niu Vaka DFAT funding support for SROP and the MAs to ensure such sexual and reproductive health and rights development is maintained and remains relevant. Recent focus around access to services and testing especially Pap Smear testing.</p>

East & Southeast Asia and Oceania Region	MA S&D Pacific	19.P0510 MFAT SRHiE (Humanitarian)	P0510 MFAT SRHiE Sexual Reproductive Health in Emergencies in the Pacific (Humanitarian)	Restricted	Improve access to lifesaving SRHR services for crisis-affected populations in all their diversity through implementation of the MISP (minimum initial service package) for SRH in crises. The purpose of the program is to contribute to reducing SRH-related mortality and morbidity, SGBV, HIV and STI transmission, and unintended pregnancies in 3 focus countries in the Pacific
East & Southeast Asia and Oceania Region	MA S&D Pacific	20.P0702 UNFPA/SROP Transformative Agenda	P0702 UNFPA/SROP Transformative Agenda : 2018-2022	Restricted	The programme seeks to reduce the unmet need for family planning over a 51-month period (2018-2022) in six priority countries: Fiji, Kiribati, Samoa, Solomon Islands, Tonga, and Vanuatu. The programme has three focus areas 1) increasing the supply of family planning information and services, 2) generating demand among the public for family planning information and services, and 3) creating a more conducive environment for people to access family planning information and services. The Family Planning training intervention falls under the first focus area.
East & Southeast Asia and Oceania Region	MA S&D Pacific	20.P0737 IPPF SROP/UNFPA Spotlight	P0737 IPPF SROP/UNFPA Spotlight 2018-2022	Restricted	The Spotlight Initiative is a global initiative of the United Nations which has received generous support from the European Union. Its aim is to eliminate all forms of violence against women and girls.

South Asia Regional Office	Regional Director Office	Staff Core Project (no current funding)	Integrate diversity and representation	Staff Core Project	Support MAs and SAR team to walk to talk

Annex 3. Risk Management

During the planning process, all regions and divisions assessed major risks that will prevent or impede delivery. Risks have also been included at project level. These will be assessed regularly as part of the risk management process using a traffic light system. Below are the main risks identified at regional and divisional level. They will be updated annually.

Africa Regional Office	<ol style="list-style-type: none"> 1. Post realignment staffing and onboarding in key positions (short term) 2. Not maintaining MA capacity and delivery standards across diverse contexts (medium term) 3. Not capitalising on strategic funding opportunities (medium term) 4. Negative societal attitudes and gender norms, reinforced by the religious, community, and political leaders (long term) 5. Adverse policies and laws remain entrenched barriers to the health and wellbeing of African women and girls in their diversities (long term).
Americas & Caribbean Regional Office	<ol style="list-style-type: none"> 1. Post realignment staffing and onboarding in key positions (short term) 2. Moving the office to Mexico City and needing to rebuild relationships and networks. (Short term) 3. Reduced regional funding and civil society space, especially in the field of SRHR. (medium to long term)
Arab World Regional office	<ol style="list-style-type: none"> 1. Wars and natural disasters in Sudan, Syria, Libya, Yemen, Lebanon (long term) 2. Government instability in Tunisia, Lebanon, and Palestine (medium to long term) 3. Further legal restrictions against family planning and abortion, which will affect service delivery, advocacy and operations in the region. (long term)
East & southeast Asia and Oceania Regional Office	<ol style="list-style-type: none"> 1. Post realignment staffing in key positions (short term)

	<p>2. The region remains susceptible to funding drops due to changing donor priorities. (medium term)</p> <p>3. The region is prone to natural disasters and climate change events, which are unpredictable and have an impact on national organisations. (long term)</p>
<p>European Network Regional Office</p>	<p>1. Gaps in staffing after the restructuring and inability to hire people with the required skills. (short term)</p> <p>3. An increase in opposition attacks diverting attention and resources from planned work (medium term).</p> <p>4. Lack of funding for rapid response for activists during the MAP transition (medium term).</p> <p>5. Divisions between progressive movements and the opposition strategies to widen these, particularly on gender identity and trans rights. (medium to long term)</p>
<p>London Office</p>	<p>1. POC: Recruitment delays impacting on secretariat and MA delivery (short term).</p> <p>2. POC: Cost envelope not maintained for secretariat staff. (short term)</p> <p>3. MA D&I: Unplanned funding reductions for delivery of services and commodities. (medium term)</p> <p>4. MA D&I: Global economic and health crisis disrupts or impedes ability to deliver services and commodities as well as MA support. (medium term)</p> <p>5. MA D&I: Slow adaptation of MA client information management systems to align with new results framework (short term).</p> <p>6. ER: Missed income opportunities due to failure to position IPPF's value proposition with donors and inability to meet compliance requirements for large-scale restricted opportunities. (medium term)</p> <p>7. ER: Political conservatism, including a rising opposition, disrupts our relationship with major stakeholders and impedes our ability to deliver on strategy and operating plan. (medium to long term)</p>

	<p>8. F&T: Delayed roll out of the shared services in Delhi, leading to negative impact on operations in some or all secretariat jurisdictions. (short term)</p> <p>9. F&T: automation project delays holding back operations (short term)</p> <p>10. F&T: Delay in cost recovery guidelines, leading to low recovery from restricted projects (short term)</p>
<p>South Asia Region</p>	<p>1. social and cultural conservatism risking safety and security of health and human rights activists in South Asia. (long term)</p> <p>2. Continued wars, political upheavals, and repressive governments undermine MA abilities to deliver, and increases the burden on regional teams. (long term)</p>
